- Learn new skills!

TIME TO DREAM AND CREATE!

CHAPTER 1

WHAT IS A PROMPT?

Hello, Srujan!
I'm understand
anything you
write inside me!

GPT-Bot

A prompt is what you tell the robot.

Tell story.

Uh... a story
about... a pizza...
on a dinosaur...
singing?

Now **THAT** I
understand!

GPT-Bot

If the prompt is confusing...

The robot gets confused too!

Draw a cat.

Draw a small orange cat
sitting on a chair, smiling.

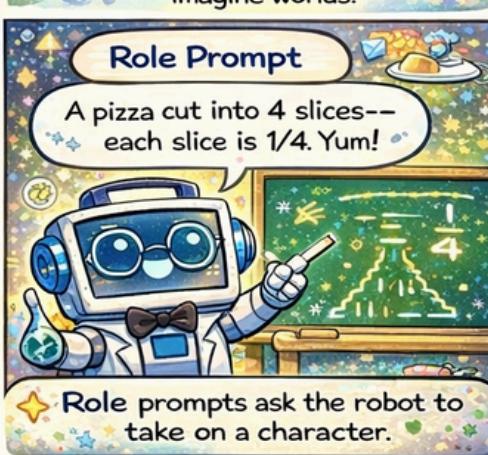

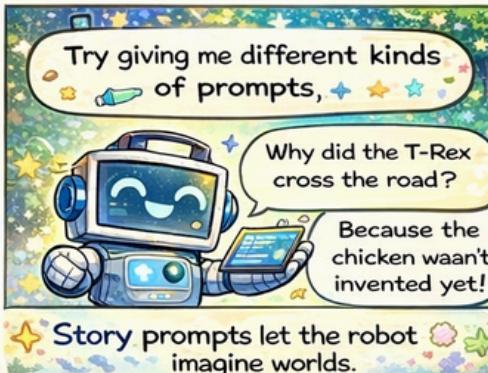

A prompt is:

- What you want
- Written clearly
- With helpful details!

CHAPTER 2

TYPES OF PROMPTS

CHAPTER 3

MAGIC FORMULA FOR GREAT PROMPTS!

Sriju discovered a magic formula that makes prompts SUPER powerful!

WHO → WHAT → HOW → EXTRA

WHO + WHAT + HOW + EXTRA

This formula helps the robot understand exactly what you want!

WHO - Who should the AI

WHO tells GPT-Bot
what character
to become!

Pretend you
are a pirate.

Pretend you are a pirate.

WHAT - What do you want done?

WHAT is the main job.
A story? A drawing?

WHAT is the main job? A story?
A Joke?

HOW - Style, tone, size, rules

HOW tells the robot the
style you want!

EXTRA - Make it funny and short.

EXTRA - Anything special?

Add a talking parrot.

Example: Add a talking parrot.

See? With my
magic formula,
prompts become
awesome!

- ▢ Pretend you are a pirate. (WHO)
- ▢ Tell me a bedtime story. (WHAT)
- ▢ Make it funny and short. (HOW)
- ▢ Add a talking parrot. (EXTRA)

CHAPTER 4

GIVE EXAMPLES & SHOW FORMAT!

Showing examples helps GPT-Bot understand your style!

When I show you an example,
you understand better!

This is how I
write poems!

Sunshine
trips on
window sill.
Bugs are all
let the hills.

Here is how I write poems.
Now write a poem in
same style.

Style detected! Soft, dreamy, playful!

Here is how I write poems.

Here is how I write poems.

Here is how I write poems.

Moonlight tiptoes across
the night, ✨
Whispering stars
glow soft and bright...

WRONG WAY *

Write like me...

RIGHT WAY *

Write like me."

RIGHT WAY *

Here is how I write
poems. I
Whispering stars
glow soft and bright...

Yes! Much
better!

Give an Example →

- ✓ Show how you want it
- ✓ Give 1-2 samples
- ✓ Ask GPT-Bot to follow
your style
- ✓ Works for poems, stories,
drawings, jokes!

CHAPTER 5

FIXING MISTAKES & DEBUGGING PROMPTS!

Sometimes the answer is wrong... and that's **okay!** We just fix the prompt.

Tell me 3 facts about elephants.

Elephants have trunks...and let me tell you the history of trunks for 500 years. ...and elephants are mammals...

Hehe... that's too-long!

Make it shorter.

Oh! Got it!

How many legs does a spider have?

Four!

1. Elephants are the largest land animals.

How many legs does a spider have?

Four!

How many legs does a spider have?

Four!

Oops! It's only four?!

You're learning so well!

Explain photosynthesis.

✓ Plants make food using sunlight.
✓ Leaves use sunlight, water, air.
✓ The process is called photosynthesis.

RE-PROMPTING MAGIC ➔

- Make it shorter
- Try again with rules
- Use bullet points
- Add examples
- Ask for clearer style.

CHAPTER 6

SAFETY & RESPONSIBLE PROMPTS!

Sriju made some kind and safe rules for using the robot.

Sriju's Golden Rules for Kids

1. Be Kind ❤️

Don't ask the robot to be rude.

2. Be Safe 🛡️

Don't ask dangerous things.
