

The Magic of

Large Language Models!

CHAPTER 1

What is a Large Language Model!

Let's learn about LLMs!

An LLM is a giant robot
brain trained to understand
and create language!

It's like a super-reader who
learned from lots of Stories!

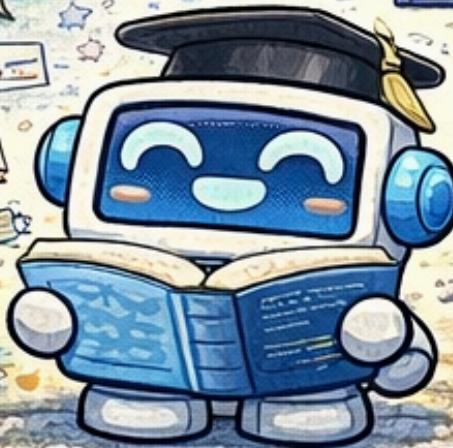

CHAPTER 2

How Do LLMs Learn?

Training

GPT-Bot here learned by reading
LOTS and LOTS of words!

It read books, comics,
facts, recipes, and more...

By finding patterns in the words,

- ★ What comes next
- ★ What makes sense
- ★ What fits together

CHAPTER 3

How Do LLMs Answer?

Patterns & Predictions

LLMs GUESS the next best word based on what they learned!

The sky is

I'll guess
BLUE!

LLMs are super helpful! Look what they can do!

★ Write → ★ Think → ★ Predict → ★ Answer

Sriju's LLM Safety Checklist

♥ Be kind

- ☑ Ask clear questions
- ☑ Check important
- ☑ Check important answers with adults
- ☑ Use LLMs as helpers, not cheats

Smart users make powerful
LLMs even better!

CHAPTER 4

What Can LLMs Do?

LLMs are super helpful!
Look what they can do!

✓ Write stories

✓ Solve riddles

✓ Help with homework

✓ Translate languages

✓ Generate art ideas

✓ Write code

✓ LLMs are super helpful! Look what they can do!

✓ Write stories

✓ Solve riddles

✓ Give facts

✓ Help with homework

✓ Translate languages

✓ Explain science

LLMs are super helpful! Look what they can do!

CHAPTER 5

Safety & Smart Use of LLMs

LLMs are super helpful!
Look what they can do!

Smart users make powerful LLMs even better!

LLMs don't always know everything

- Don't share personal info
- LLMs don't have feelings
